

# VITATECH-S

*The well balanced minerals & vitamins blend for shrimp*

## PROPERTIES

- **VITATECH-S** is an original blend of vitamins and trace elements designed to compensate for imperfections and deterioration in feed composition due to poor stocking conditions, poor quality raw materials, poor formulation and its detrimental effect on bio availability of essential elements.
- **VITATECH-S** is also a vitamin and mineral blend which can be used in the manufacturing of home-made aquaculture feed in adjunction to local ingredients.
- **VITATECH-S** has a direct effect on:
  - Health
  - Rearing performance

## COMPOSITION (per kg of product)

### VITAMINS

Vitamin A : 1 100 000 UI	Vision
Vitamin D3 : 310 000 UI	Calcium/phosphorus metabolism
Vitamin E : 2 100 mg	Antioxidant
Vitamin C : 11 000 mg	Cellular Integrity – hormone synthesis - chemical cofactor
Vitamin K3 : 400 mg	Coagulation
Vitamin B1 : 400 mg	Carbohydrate metabolism
Vitamin B2 : 500 mg	Energy metabolism
Vitamin B6 : 500 mg	Protein metabolism
Vitamin B12 : 5 mg	Nucleic acid metabolism
Vitamin PP : 2 000 mg	Metabolism
Biotin : 20 mg	Fatty acid synthesis
Folic Acid : 220 mg	Protein metabolism - co enzyme
Choline chloride: 5 000 mg	Cellular integrity
Inositol : 10 000 mg	Cholesterol transport

### Essential for :

### TRACE ELEMENTS

Manganese : 2 100 mg
Zinc : 7 000 mg
Iron : 3 178 mg
Iodine : 20 mg
Cobalt : 50 mg
Copper : 3 500 mg
Selenium : 50 mg
Phosphorus : 10 g

## USE AND PRESENTATION

- Per 1 kg of feed: Mix 10 g **VITATECH-S** with 50/100 ml of clean water, then mix with the pellet, wait the liquid absorption and then coat with **TECH-OIL** or with a good quality fish oil. Use this prepared feed immediately. We recommend a daily use of **VITATECH-S**.
- Store **VITATECH-S** in a dry and cool place
