

VITAFISH, VITATECH-F+ and VITATECH-F

AQU025, AQUA011 and AQUA005

A well balanced vitamins & trace elements premixes for fish

PROPERTIES

- VITAFISH, VITATECH-F+ and VITATECH-F are original premixes of vitamins and trace elements designed to best meet the specific needs of farmed fishes
- VITAFISH should be used in the manufacturing of **industrial** or **home-made fish feed** in adjunction to local ingredients.
- VITATECH-F+ should be used in the manufacturing of **industrial** or **home-made fish feed** in adjunction to local ingredients. VITATECH-F+ contents Lysine and Methionine to be able to reduce the required level of fish meal in the diets
- VITATECH-F could be used in the manufacturing of **home-made aquaculture feed** in adjunction to local ingredients.
- The exact dosages of VITAFISH, VITATECH-F+ and VITATECH-F should be adapted to species requirements.
- All vitamin C used in the composition of the VITAFISH and VITATECH-F+ is thermo stable and can be used in feed extruders without loss.
- VITAFISH, VITATECH-F+ and VITATECH-F have a direct effect on :
 - Growing performance
 - Survival rate

USE AND PRESENTATION

- Mix **10 kg** per kg of meal mix before pezzleting or coat on feed with a good quality fish oil. Use the prepared feed immediately .
- We recommend a daily use of VITATECH-F
- Store in dry and cool place.
- Store in dry and cool place.
